

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. CALIFORNIA LIBRARIES

All libraries are listed except elementary public school and church libraries and those which belong to private individuals. They are arranged alphabetically by place under counties and counties are arranged alphabetically. To determine the county in which any place is located see list following these introductory paragraphs.

Those libraries are marked with an asterisk (*) which are not free to the public for either loan or reference purposes.

Libraries marked with ‡ are United States depository libraries; those marked with § are depositories for the Official gazette of the Patent Office; those marked with || are geological depositories.

Statistics are printed for the quarter but are sent in by the libraries for each month separately in most cases, and will be furnished to any one who wishes them in the monthly form upon application to California State Library. So that the figures for circulation may be uniform, current magazines are included in the total whether reported that way or not.

Blanks for October, November and December statistics were sent to all of the libraries in December.

There are in California 14 county free libraries; 1 library district library; 1 high school district library; 122 libraries supported by city taxation; 66 law libraries, of which 55 are county law libraries; 58 county teachers' libraries; 317 libraries in educational institutions, of which 5 are universities, 9 colleges, 6 normal schools, 229 public high schools, 68 private schools and other institutions; 54 miscellaneous institution libraries and 67 association or society libraries; 57 subscription libraries. In connection with the above libraries there are 284 branches and deposit stations.

There are 100 library buildings, of which 94 were gifts, and of these gifts 78 are from Andrew Carnegie. Of these 78 Carnegie buildings, 1 is under construction, and 2 are being planned.

One boy was soon poring over a book on electricity. Another became absorbed with 'Famous scouts,' and a little girl just beamed at the thought of reading 'Little women,' for she had 'always wanted to read it.' One or two women were enjoying 'Woman's home companion,' some men were reading the newspapers, and others were selecting books."

Tulare County Teachers Library was transferred to the Tulare County Free Library at the December meeting of the board of supervisors. As this is a reference and pedagogical library almost exclusively, it will not help in the average school library. It will be used for special requests.

DIRECTORY FOR LIBRARY SUPPLIES AND OTHER ITEMS OF GENERAL INTEREST.

Many public libraries waste a great deal of time and money before they find good places to get supplies. The plan is to give all libraries the benefit of the experience of the older libraries of the state by listing under different heads the houses that have been found to give satisfaction, the names and addresses being furnished by the older and larger libraries of California. In this way suggestions will be given as to where different sorts of books may be bought, where books may be rebound or periodicals bound, where library furniture may be bought, etc., both in California and in the East.

If any information is needed about the firms listed below which can not be obtained from the firms themselves, the names of the libraries recommending the different ones will be sent to any library upon application to the Extension Department of the State Library.

In this same section space will be given to any libraries of California in which to list numbers of periodicals, etc., wanted to complete files; books especially needed at any time, either to purchase or borrow; needs of any sort, such as an assistant to catalog the library, or assist, etc. Space will also be given to any librarian who wants a permanent position in a library, or who wants special work, such as cataloging small libraries, etc.

The section is entirely at the disposal of libraries and librarians for the purpose of mutual aid.

Union Catalog for California at the State Library.

Up to the present cards have been received and filed from the Alameda, Fresno, Merced and Yolo county free libraries—total about 3600 cards. To look the catalog over even in its present beginning immediately convinces anyone of the inestimable value it will soon be to the county libraries and to any other libraries in California that decide to be represented in it. All libraries are invited to join in this first step toward economical coöperation and even if it is impossible to go back, at least to send a card for every addition from now on. For further information about the Union catalog, address the State Library, Sacramento, Calif.

Annual Meeting.

At a meeting of the Executive Committee held in San Francisco October 17th, it was decided to hold the next annual meeting of the association at Tahoe Tavern, Lake Tahoe, June 17 to 22, 1912, in connection with the annual convention of the California county librarians.

The Tavern will accord the members of the association and their families, the following special rates per day on the American plan:

One in room with bath.....	\$1.50
Two in room with bath, each.....	4.00
One in room without bath.....	3.50
Two in room without bath, each.....	3.00

It is the understanding that the above special rates will also obtain where members of the association and their families reach the Tavern prior to June 17th, and for those who wish to remain at the Tavern after the convention adjourns and up to July 1st.

Below is list of rates from principal points in California and Nevada to Tahoe Tavern and return. These rates are the

same as have applied for several seasons past, and will probably be the established rates for the next season. All of the rates shown with the exception of those marked * are good for ten days from date of sale. Those marked * are good for twenty-one days, and include the trip around the lake. All tickets provide for liberal stopover privileges en route, and for those who decide to remain at the lake longer than the above limits, arrangements for extending tickets may be made at the Tahoe office by paying the difference between the original purchase price and the cost of tickets carrying a longer limit:

First District Meeting.

The initial meeting of the First District of the California Library Association with Mr Watson as president was held under most auspicious circumstances on Friday evening, December 15, 1911, in what will eventually become the Library school room of the University of California Library. The notices of the meeting read "Room 32," but when we learned from Mr. Rowell that this apartment had been definitely set aside in the plans for a library school, the hope of so many library people, our presence there took on a new significance, and we felt that no other room would have been so appropriate for the meeting.

The meeting was called to order at about 8:15, when Mr Watson welcomed the members and guests and expressed a hope that those who had not hitherto thought of joining the association would find the meeting so interesting that they would lose no time in becoming members. The program for the meeting had purposely been made short to give as much time as possible to the inspection of the new building. C. S. Greene outlined library work in California from 1878 to the present era of county library work which is being done all over the state with such signal success that there is the prospect of having the entire state covered by 1915, our "show" year.

Mr Weber, who had promised a talk on Music in the public library, was unable to attend, so that the treat is promised for the next meeting, which Mr Watson announced for some date in March.

Mr Rowell then gave a short but most interesting talk on the new University library building. With the enlargement of the library, additions to the staff were necessary, and Mr Rowell spoke in a most appreciative way of his assistants, closing his remarks with a request for a few words from his associate, H. L. Leupp. Mr Leupp outlined the plans of the li-

brary, chief of which is the plan to recatalog, and for that reason the library school will probably not be considered for another year.

The staff of the University library proved excellent hosts, and after serving refreshments, took the visitors upon a tour of inspection from the depths of the basement to the fifth story of the stack.

The meeting was well attended. Among those in attendance beside the University library staff were: Alameda, Mrs Marcella H. Krauth, Miss Elizabeth Dorn, Miss Lillian Kindred; Berkeley, David R. Moore, Miss Celia A. Hayward, Miss Gertrude W. Littlejohn; Mills College, Miss Anna L. Sawyer, Miss Elisabeth C. Haines; Oakland, Charles S. Greene and Mrs Greene, Miss Jean D. Baird, Miss Mary Barmby, Miss Jane M. Fenton, Mrs Caroline K. Louderback; San Francisco, William R. Watson and Mrs Watson, Miss Anne Bell Bailey, F. B. Graves, Miss F. S. C. James, Miss Clara F. Mel; Stanford University, George T. Clark, Miss L. May Brooks, Miss Anna G. Hall, Miss Helen Sutliff.

ANNE BELL BAILEY, Secretary.

Fourth District Meeting.

The President of the Fourth District is planning to hold a meeting at Bakersfield on February 22, 1912.

Librarian of Congress to Visit California.

Dr Herbert Putnam, librarian of Congress, and honorary member of the C. L. A., will be the speaker on Charter Day, March 23, 1912, at the University of California, and guest of honor at a reception at the University that afternoon.

Examinations.

The next examinations will be held at the Public Library, Los Angeles, February 12 and 13, 1912, and at the State Library, Sacramento, February 16 and 17, 1912. In each case a written examination will be given on the first day at 2:00 P. M. and an oral examination on the second day at 10:00 A. M. All who have applications on file with the Chairman of the Board will be duly notified.

The examinations are not of a conventional nature concerning literary and historical subjects, but more especially concerning those pertinent to the conduct of a county free library. And though the questions may not deal largely with technical library subjects, yet it is not advisable for any one to take the examination who has not had library training and experience, as a thorough understanding of library technique is necessary for the successful conduct of a county library system.

The Board of Library Examiners has decided that for the present at least examinations will not be given outside the state, for many reasons.

Experience has shown that only persons who have lived in the state and have done library work in a way to gain a personal knowledge of California conditions really understand the county library plan for California.

The aim of the examination is to see how thorough is the applicant's knowledge of the conditions under which the county

library work must be carried on and of the problems to be met in the work as it is actually being done in this state.

One must have technical library knowledge in order to conduct a county library system successfully and experience in other fields may prove a valuable asset, but a real understanding of the work here is absolutely necessary. And those who do understand what we are doing and what we hope to do, will not find the examination difficult.

Again, the members of the Board feel that the oral examination which follows the written is most important. They feel that they can not fairly judge of an applicant's qualifications without meeting him in this way.

When a county is ready to organize the county library and to appoint the county librarian, the candidate should be at hand to apply in person for the position, and be ready to accept the appointment if it is offered, and to begin work immediately.

In view of these facts it would seem unwise at the present time to give the examinations anywhere except under the direct supervision of the Board of Library Examiners.

County free library law.

The California county free library law and circular of information for applicants for certificates of qualification to hold office of county librarian in California was published in *News Notes of California Libraries*, April, 1911, and later reprinted in pamphlet form. Copies will be furnished by the State Librarian.

Application blanks.

All who wish to take the examination should file applications with the Chairman of the Board. For application blanks or further information address the Chairman of the Board, J. L. Gillis, State Librarian, Sacramento, California.

Library Hours.

Week days ----- 9 A. M. to 4 P. M.
Sundays ----- 10 A. M. to 3 P. M.
Legislative session --- 9 A. M. to 9 P. M.

Law Department.

MILTON J. FERGUSON, in charge.

The Law Department is fully equipped with the latest reports, digests, encyclopedias and text-books, and is entirely free to the public for reference purposes. State officers are entitled to borrow books, and private individuals are accorded the same privilege upon presentation of an order signed by a Supreme, Appellate or Superior Judge. Books may be kept three weeks, and will be once renewed for two weeks. All books are subject to recall, if required by a state officer.

Borrower's Card.

A new guarantee card for borrowers has been adopted for the Law Department. Heretofore it has been necessary for the persons taking out books to have a card signed by a judge or a state officer for each book or lot of books taken at one time. Henceforth the lawyers who desire to borrow books will be required to have a general guarantee card signed by a judge or a state official, which card will be good during the calendar year. This plan will relieve borrowers from having continually to have fresh cards signed.

Index to Supreme Court Records.

Fair progress is being made in the compilation of the new index to Supreme and Appellate court records, which finally the Library hopes to issue in printed form. To date, about 1000 volumes have been finished, or about a quarter of the total number of volumes in the library collection.

Documents Department.

ALICE J. HAINES, in charge.

The Documents Department aims to collect, arrange and make available government publications, federal, state and foreign.

SUMMARY OF CONSTITUTIONAL AMENDMENTS AND THE LEGISLATION OF THE SPECIAL SESSIONS OF THE LEGISLATURE.

At the thirty-ninth regular session of the Legislature of California, January 2 to March 27, 1911, twenty three proposed

amendments to the constitution were passed by both houses, and a law was enacted naming October 10, 1911, as the day for them to be voted upon by the people. All but one were adopted at that election. At the call of the Governor two extraordinary sessions of the Legislature were held, the first from November 27 to December 24, and the second on December 24, 1911, to enact the laws necessary to put the amendments into effect as well as to legislate on other subjects of importance. The bills approved by the Governor will go into effect ninety days after the date of adjournment, with the exception of urgency measures and appropriations for current expenses.

The following summary includes all of the constitutional amendments, and some of the more important measures passed at the extra sessions.

CONSTITUTIONAL AMENDMENTS AND ENABLING ACTS.

Appeals in criminal cases (S. C. A. 26).†

Relates to appeals in criminal cases, prohibits reversal in criminal cases, unless it is apparent that there has been a miscarriage of justice. (Constitution, article 6, sec. 4½.)

No legislation was needed to make this amendment operative.

City charters (S. C. A. 48).

Amends section 8½ of article 11 relating to the powers conferred on municipal corporations by freeholders' charters. (Const. art. 11, sec. 8½.)

No legislation needed.

City charters (S. C. A. 20).

Relates to charters of cities and amendments thereto. (Const. art. 11, sec. 8.)

No legislation needed.

City officials (A. C. A. 25).

Relating to the manner of electing officers of cities and the number of votes necessary to constitute a choice. (Const. art. 20, sec. 13.)

The main purpose of this amendment is merely so to remove an ambiguity in the constitution as to define clearly the right of cities to employ the system of majority elections already provided for by their charters. Assembly bill 45 (Stat. ex. 1911, chap. 10) provides the necessary machinery.

†Abbreviations used are the following: A. B., assembly bill; S. B., senate bill; A. C. A., assembly constitutional amendment; S. C. A., senate constitutional amendment; Stat., Statutes and amendments to the codes, extra session, 1911; Resol., concurrent and joint resolutions and constitutional amendments, extra session, 1911.

County charters (Committee substitute for S. C. A. 5).

Relates to charters for the government of counties and amendments to such charters and to the surrender thereof by vote of the qualified electors of a county and providing for "county home rule." (Const. art. 11, sec. 7½.)

No legislation needed.

Divided legislative session (S. C. A. 6).

Relates to regular sessions of the Legislature, provides for a session of not exceeding thirty days followed by a recess of not less than thirty days, and limits the introduction of bills on reassembling after such recess. (Const. art. 4, sec. 2.)

No legislation needed.

Eminent domain (S. C. A. 17).

Relates to the rights of private property and to the law of eminent domain. (Const. art. 1, sec. 14.)

No legislation needed.

Employers' liability (S. C. A. 32).

Relates to compensation for industrial accidents (Const. art. 20, sec. 21.)

Two bills were passed to put this amendment into operation. One makes it the duty of the Industrial accident board to collect statistics of industrial accidents (S. B. 11, Stat. ex. 1911, chap. 39) and the other provides that every employer of labor, except those engaged in farming, etc., shall keep a record of serious accidents and report to the Industrial accident board. (S. B. 12, Stat. ex. 1911, chap. 53.)

Impeachment (A. C. A. 46).

Relates to the impeachment of state officers and of judges. (Const. art. 4, sec. 18.)

No legislation needed.

Initiative and referendum (S. C. A. 22).

Provides for initiative and referendum. (Const. art. 4, sec. 1.)

No laws were required to make this amendment directly effective in the state, but laws were required to make it operative in the counties. Assembly bill 9 (Stat. ex. 1911, chap. 31) relates to direct legislation in counties and Assembly bill 11 (Stat. ex. 1911, chap. 33) provides for direct legislation by incorporated cities and towns.

Judiciary (A. C. A. 26).

Relates to the judiciary and gives the Legislature power to establish inferior courts. (Const. art. 6, secs. 1, 5, 11, 15.)

No legislation needed.

Passes (A. C. A. 28).

Relates to the issuing of passes to public officials.

Defeated.

Public utilities.

(S. C. A. 47). To confer on the Railroad Commission power and jurisdiction to regulate and control the business of furnishing certain commodities and performing certain services to and for the public. (Const. art. 12, sec. 23.)

Legislation required.

(S. C. A. 49). Relates to public utilities in cities. (Const. art. 11, sec. 19.)

No legislation needed.

(A. C. A. 6). Creating a railroad commission and defining its powers and duties. (Const. art. 12, sec. 22.)

Legislation required.

(A. C. A. 50). Relates to railroads and other transportation companies. (Const. art. 12, secs. 20, 21.)

Legislation required.

Of the laws enacted at the extra session the one of most far reaching importance is that which makes these constitutional amendments effective. It increases the powers of the Railroad commission to give it complete power of regulation and control over all public utilities, the control of which is not reserved by municipalities. The public utilities included are steam and interurban and street railways, express companies, vessels regularly operating between fixed points in the state, car companies, pipe lines, gas, electrical, telephone, telegraph and water companies, wharfingers and warehousemen. The Railroad commission is changed from an elective board of three to an appointive board of five to be named by the Governor for terms of six years at \$6,000 per year. (A. B. 1, Stat. ex. 1911, chap. 14.)

Recall (S. C. A. 23).

Provides for the recall of public officials by the electors (Const. art. 23, sec. 1.)

No legislation was required to make this amendment effective for state officials. Assembly bill 8 (Stat. ex. 1911, chap. 30) provides for the recall of elective officers of counties, townships and supervisorial districts, and Assembly bill 10 (Stat. ex. 1911, chap. 32) provides for the recall in incorporated cities.

Supreme Court clerk (A. C. A. 33).

Relates to the appointment and compensation of the clerk of the Supreme court; to the appointment by the Supreme Court of reporters, and to the appointment of clerks by the District courts of appeal. (Const. art. 6, sec. 14, 21.)

A "short ballot" measure, making the office of Clerk of the Supreme court appointive by the justices of the court, instead of elective.

Taxation (A. C. A. 48).

Relates to the exemption of property of veterans of wars from taxation. (Const. art. 13, sec. 14.)

This amendment will not become effective until the Legislature enacts laws to

put it into force. This will probably be done at the next regular session of the Legislature.

Term of office (S. C. A. 45).

Relates to the term of any officer or commissioner not provided for in the constitution. (Const. art. 20, sec. 16.)

No legislation needed.

Text-books (A. C. A. 2).

Relates to the minimum period for the use of text-books in the common schools throughout the state, providing that they shall continue in use not less than four years without any change or alteration which will require or necessitate the purchase of new books by the pupils. (Const. art. 9, sec. 7.)

No legislation needed.

Weights and measures (S. C. A. 2).

Provides that the Legislature may by general and uniform laws provide for the inspection, measurement, and gradation of merchandise, manufactured articles and commodities. (Const. art. 11, sec. 14.)

A bill was introduced in the Senate (S. B. 2) but was lost because the Senate could not agree on the amendments made by the Assembly.

Woman suffrage (S. C. A. 8).

Relates to suffrage, giving women the right to vote. (Const. art. 2, sec. 1.)

This amendment was operative immediately upon its adoption, requiring only amendatory laws to make the codes comply with the amendment. Among the bills introduced is one defining the qualifications of voters (A. B. 4, Stat. ex. 1911, chap. 11) and one relating to registration (A. B. 70, Stat. ex. 1911, chap. 47).

OTHER LEGISLATION OF THE EXTRA SESSIONS.

Conservation.

A law was passed which repeals the Act of April 8, 1911 (Stat. 1911, chap. 406). It provides that the appropriation of water for generating power shall not be for a longer period than forty years, instead of twenty-five years, and changes the name of the board from Board of control to State water commission. (S. B. 48, Stat. ex. 1911, chap. 41.)

Horticulture.

The only bill considered at the second extra session was that to provide for the protection of horticulture and to prevent the introduction into the state of insects or diseases or animals injurious to fruit or fruit trees and to provide for a quarantine for the enforcement of the act. The powers of the Commissioner of Horti-

culture are increased so that he may effectively carry out the provisions of the law. This is an urgency measure going into effect immediately upon approval by the Governor. The particular object of the legislation at this time is to prevent the threatened introduction of the Mediterranean fruit fly into this country. Approved January 2, 1912. (A. B. 1, Stat. 2 ex. 1911, chap. 1.)

Library sites.

A measure of interest to city libraries is that amending section 1 of the act of April 22, 1909, relative to the acquisition by municipalities of land for public park or public playground purposes to read as follows: Whenever the public interest or convenience may require, the city council or any municipality shall have full power and authority to acquire by condemnation any land situate in such municipality for public park, public playground, or public library purposes. (A. B. 41, Stat. ex. 1911, chap. 12.)

Presidential primary.

The presidential preference primary act provides for the election of delegates to the national conventions by popular, state-wide vote. "It further provides the machinery by which the electors of each party express their choice and for binding the delegates to abide by such choice." The first presidential primary is to be held on May 14, 1912. (A. B. 30, Stat. ex. 1911, chap. 18.)

Reapportionment.

The 1910 census increases the number of California Representatives in Congress from eight to eleven. The division of the state into eleven Congressional districts in accordance with the Act of Congress approved August 8, 1911, is provided for by Assembly bill 14 (Stat. ex. 1911, chap. 38).

Reapportionment of the state into state senatorial and assembly districts is provided by Assembly bill 66 (Stat. ex. 1911, chap. 37).

The bill dividing the state into equalization districts did not pass. (S. B. 49.)

Reclamation.

Of particular importance to the Sacramento valley was the passage of a bill approving the report of the California Débris Commission on the control of floods in the river systems of the Sacra-

mento valley and adjacent San Joaquin valley, transmitted to the Speaker of the House of Representatives by the Secretary of war on June 27, 1911 (62d Cong. 1st sess., H. doc. 81). The measure provides for the appointment by the Governor of a reclamation board of three members, such board to pass on all plans for canals or levees within the overflow basins, and appropriates \$10,000 with which the state engineer shall make surveys to complete the plans for the work outlined in the report of the Débris Commission (S. B. 30, Stat. ex. 1911, chap. 25.)

Senate joint resolution 13 memorializes Congress for favorable consideration of the project contained in the report of the California Débris Commission. (Resol. ex. 1911, chap. 20.)

School lands.

Provision is made for the settlement of a controversy between the United States and the State of California in relation to school land grants (see Constitution, article 9, sec. 4). The federal government claims that prior to March 1, 1877, approximately 16,000 acres of land were listed to the state in excess of what the state was entitled to; also that the state received indemnity for land falsely assumed to fall within Mexican grants, this total being 10,151 acres; also that the state had received indemnity for 8715 acres of mineral land which the state has sold in place, and also that the state received 2028 acres in excess of the 500,000 acre grant for the benefit of schools. It is planned to pay \$1.25 per acre for the excess prior to 1877, to return base for the mineral land and land for any additional excess in certifications since 1877. The act carries an appropriation of \$25,000. This should lead to the clearing up of title to 450,000 acres of land to which the federal government is holding up patents pending the settlement of the dispute. (S. B. 20, Stat. ex. 1911, chap. 21.) Another bill withdraws all school land from sale until after September 1, 1913, pending the settlement of the controversy. (S. B. 37, Stat. ex. 1911, chap. 62.)

Text-books, Free.

A constitutional amendment is proposed providing for free text-books. The Legislature shall provide for the appointment

or election of a state board of education which shall compile a uniform series of text-books for day and evening elementary schools to be furnished free to pupils and not to be changed oftener than once in four years. (A. C. A. 3, Resol. ex. 1911, chap. 10.)

Reference Department.

SUSAN T. SMITH, in charge.

The Reference Department furnishes information to any inquirer. It furnishes books to public libraries, or any other educational institution, on application; to individuals through the signature of a state officer, of the Librarian of the local library or of the official head of any other educational institution or on receipt of a \$5.00 deposit; to a club or grange on request of its president, secretary or librarian.

The State Library pays the cost of transportation to any one borrowing through a county free library, but in every other instance the charges both ways are paid by the borrower. Wells Fargo Express Co. has granted a half-merchandise rate to the borrower on return shipments.

During the past three months, there has been a very marked increase in the number of books shipped from the State Library to the county libraries and their various branches. The request slips now being used are proving economical and satisfactory.

Catalog Department.

IDA G. MUNSON, temporarily in charge.

The work of the Catalog Department is proceeding along two parallel lines; the cataloging of the regular additions of new books, and the recataloging of much material needing a fuller treatment than it has heretofore received.

During October, November and December 880 volumes were cataloged, adding 3234 cards to the catalog.

California Department.

EUDORA GAROUTTE, in charge.

The California Department aims to have a thoroughly good collection of books on the history and description, resources and industries of the State, as well as the works of California authors in all departments of literature. These are made accessible by means of a card catalog. Full names and biographical sketches of California authors, artists, musicians, pioneers and early settlers are being secured, together with their photographs. The collection of bound periodicals is quite large. The Department also contains about 5000 bound volumes of newspapers, a file of which is being indexed with reference to the history of the State. Students will be assisted in their work.

Pioneers and Early Settlers.

Many pioneer cards of great interest have been received during the last three months. One of the most interesting is

that of William A. Richardson, who arrived in California August 2, 1822. Mr Richardson came direct from England and settled at Yerba Buena (San Francisco), where he was Captain of the port for ten years and later became the most noted pilot on San Francisco bay. He sounded the bay and the Sacramento river for the purpose of piloting vessels in 1852. The original landing for vessels was the Presidio, and Captain Richardson took the first ship around to Washington street. He married into the Martinez family, and made his permanent home at Sausalito, where he died April 20, 1856.

Elitha Donner Wilder is the eldest daughter of Captain Donner of the Donner party, and came to Sutter's fort with the first relief party sent out. Mrs Wilder is still living at Bruceville, Sacramento county.

Dr Samuel Johnson Tennent arrived in 1848. He was an Englishman, but came to California from the Hawaiian islands. Although a physician and surgeon, he engaged in the stock business and became a member of the firm of Tennent and Chamber. Dr Tennent married Maria Rafaela Martinez. Being a British subject, he fought the squatters and perfected the title to the Pinole ranch, which was a grant to the Martinez family. He then became an American citizen and passed the remainder of his life at Pinole, where he died August 16, 1886.

Isaac Munroe Baker came to the State in 1846 and was an officer in the U. S. marine corps at the time of the arrival of Stevenson's regiment. Mr Baker died in San Francisco August 14, 1910.

The cards of the Fay brothers are of much interest, as are also those of Evan Mosher, Asa Ellis and many others.

Donations.

Of the many valuable gifts to the department we can mention only a few of the most important ones.

Dr Stanley Jewett of Marysville presented a large collection of Indian relics, minerals and shells; also a scrap book, a letter written in 1846 and other historical material.

James Boyd sent for preservation an old street car ticket used in San Francisco in 1867.

Genealogies of the Foster and Livermore families have been added, together with a large number of autograph copies of books by California authors.

Catalog.

The California catalog has been increased by the addition of 181 cards.

Pictures.

The most valuable picture received was presented by Richard Barry. It is a photograph of the first graduating class of the San Francisco High School in 1859. Mr Barry's father was a member of the class as was also the late Dr Henry Gibbons, Jr.

A picture of the flag used at the groundbreaking ceremonies of the Panama-Pacific Exposition has also been placed on file, while pictures of California authors, artists, musicians and pioneers have been received in large numbers.

Advertising of this department was done in October and November, by sending notices to the newspapers, and by circular letters to some of the blind, who had not yet become borrowers. The results of this advertising are shown in the increased number of borrowers added during the quarter, 42 new names having been added since October 1.

*The Braille transcript, bi-monthly devoted to music, ceased publication with volume 3, number 4, August, 1911. The Ziegler Musical Quarterly, both in New York point and American Braille, ceased publication with volume 2, number 4, October, 1911. The number of subscribers to the musical magazines did not warrant their continuance. This library will add The Braille musical magazine, printed in England, to take the place of these magazines which no longer appear. The Braille musical notation used in England is the same as that used in America, so all readers of American Braille music can use this periodical.

The list of state publications is arranged alphabetically in this number, and will be continued in that way. The reason for the change is that the State Library finds it more convenient to arrange the publications alphabetically, both on the shelves and in the lists.

CALIFORNIA LIBRARIES.

All libraries are listed except elementary public school and church libraries and those which belong to private individuals. They are arranged alphabetically by place under counties and counties are arranged alphabetically. To determine the county in which any place is located see list following these introductory paragraphs.

Those libraries are marked with an asterisk (*) which are not free to the public for either loan or reference purposes.

Libraries marked with ‡ are United States depository libraries; those marked with § are depositories for the Official gazette of the Patent Office; those marked with || are geological depositories.

Statistics are printed for the quarter, but are sent in by the libraries for each month separately in most cases, and will be furnished to any one who wishes them in the monthly form upon application to California State Library. So that the figures for circulation may be uniform, current magazines are included in the total whether reported that way or not.

Blanks for January, February and March statistics were sent to all of the libraries in March.

There are in California 16 county free libraries; 1 library district library; 1 high school district library; 122 libraries supported by city taxation; 66 law libraries, of which 55 are county law libraries; 58 county teachers' libraries; 318 libraries in educational institutions, of which 5 are universities, 9 colleges, 6 normal schools, 229 public high schools, 69 private schools and other institutions; 54 miscellaneous institution libraries and 67 association or society libraries; 60 subscription libraries. DIRECTORY FOR LIBRARY SUPPLIES AND OTHER ITEMS OF GENERAL INTEREST.

Many public libraries waste a great deal of time and money before they find good places to get supplies. The plan is to give all libraries the benefit of the experience of the older libraries of the state by listing under different heads the houses that have been found to give satisfaction, the names and addresses being furnished by the older and larger libraries of California. In this way suggestions will be given as to where different sorts of books may be bought, where books may be rebound or periodicals bound, where library furniture may be bought, etc., both in California and in the East.

If any information is needed about the firms listed below which can not be obtained from the firms themselves, the names of the libraries recommending the different ones will be sent to any library upon application to the Extension Department of the State Library.

In this same section space will be given to any libraries of California in which to list numbers of periodicals, etc., wanted to complete files; books especially needed at any time, either to purchase or borrow; needs of any sort, such as an assistant to catalog the library, or assist, etc. Space will also be given to any librarian who wants a permanent position in a library, or who wants special work, such as cataloging small libraries, etc.

The section is entirely at the disposal of libraries and librarians for the purpose of mutual aid.

Union Catalog for California at the State Library.

Up to the present cards have been received and filed from the Alameda, Fresno, Madera, Merced, Sacramento, Santa Barbara, Tulare and Yolo county free libraries—total about 11,000 cards. To look the catalog over even in its present beginning immediately convinces anyone of the inestimable value it will soon be to the county libraries and to any other libraries in California that decide to be represented in it. All libraries are invited to join in this first step toward economical coöperation, and even if it is impossible to go back, at least to send a card for every addition from now on. For further information about the Union catalog, address the State Library, Sacramento, Calif.

Annual Meeting.

The next annual meeting of the Association will be held at Tahoe Tavern, Lake Tahoe, June 17 to 22, 1912, jointly with the annual convention of the California county librarians.

The Tavern will accord the members of the association and their families, the following special rates per day on the American plan:

One in room with bath.....	\$4.50
Two in room with bath, each.....	4.00
One in room without bath.....	3.50
Two in room without bath, each.....	3.00

It is the understanding that the above special rates will also obtain where members of the association and their families reach the Tavern prior to June 17th, and for those who wish to remain at the Tavern after the convention adjourns and up to July 1st. Reply post cards for hotel reservations will be mailed to members a few weeks before the meeting.

Below is list of round trip ten day fares from principal points in California and Nevada to Tahoe Tavern. Tickets are on sale any day. Rates marked * apply from southern California points, are good via Coast line or Valley routes; are good for the entire season and include trip around the lake. Rates marked ** apply to Tahoe Tavern and are good for the entire season.

Stopovers will be permitted on all tickets within limit on going and return trip, at Sacramento, Merced, Oakland, Castroville, San Francisco, Santa Cruz, Paso Robles and Santa Barbara, when routed via those points; also at Auburn and all stations east thereof. These are the only points at which stopovers may be made, and in cases where people desire to visit other points than those mentioned, it is suggested that they use their tickets to the stopover point, and then purchase tickets locally from and to such stopover point. For those who decide to remain at the lake longer than the above limits, arrangements for extending tickets may be made at the Tahoe office by paying the difference between the original purchase price and the cost of tickets carrying a longer limit.

Those who are going to the A. L. A. conference at Ottawa, June 28 to July 2, will be interested to know that all round trip tickets to Ottawa will permit of ten days stopover at Truckee. The local fare from Truckee to Tahoe Tavern is \$3.00.

Examinations.

The next examination will be held at Tahoe Tavern, Lake Tahoe, June 19, 1912, at 3 p. m. All who have applications on file with the Chairman of the Board will be duly notified.

The examinations are not of a conventional nature concerning literary and historical subjects, but more especially concerning those pertinent to the conduct of a county free library. And though the questions may not deal largely with technical library subjects, yet it is not advisable for any one to take the examination who has not had library training and experience, as a thorough understanding of library technique is necessary for the successful conduct of a county library system.

The Board of Library Examiners has decided that for the present at least examinations will not be given outside the state, for many reasons.

Experience has shown that only persons who have lived in the state and have done library work in a way to gain a personal knowledge of California conditions really understand the county library plan for California.

The aim of the examination is to see how thorough is the applicant's knowledge of the conditions under which the county library work must be carried on and of the problems to be met in the work as it is actually being done in this state.

One must have technical library knowledge in order to conduct a county library

system successfully and experience in other fields may prove a valuable asset, but a real understanding of the work here is absolutely necessary. And those who do understand what we are doing and what we hope to do, will not find the examination difficult.

Again, the members of the Board feel that the oral examination which follows the written is most important. They feel that they can not fairly judge of an applicant's qualifications without meeting him in this way.

When a county is ready to organize the county library and to appoint the county librarian, the candidate should be at hand to apply in person for the position, and be ready to accept the appointment if it is offered, and to begin work immediately.

In view of these facts it would seem unwise at the present time to give the examinations anywhere except under the

direct supervision of the Board of Library Examiners.

Sample examination questions can not be furnished.

Reference Department.

SUSAN T. SMITH, in charge.

The Reference Department furnishes information to any inquirer. It furnishes books to public libraries, or any other educational institution, on application; to individuals through the signature of a state officer, of the Librarian of the local library or of the official head of any other educational institution or on receipt of a \$5.00 deposit; to a club or grange on request of its president, secretary or librarian.

The State Library pays the cost of transportation to any one borrowing through a county free library, but in every other instance the charges both

ways are paid by the borrower. Wells Fargo Express Co. has granted a half-merchandise rate to the borrower on return shipments.

The service to high schools for their debates, and to clubs for their study courses, this last winter has proved that librarians should work out a better and more economical plan of service. The plan that now suggests itself is that county librarians communicate with the debate coach of each high school in the county before the close of the present school term, and find out what subjects are to be debated the next school year. Then by listing these together with what material the county free library either has or is ordering, and sending the lists promptly to the State Library, it will be possible to be prepared to give really good service. The same plan would work out for better service to clubs, as almost all study clubs make their programs for the next year before the end of the present study club year.

Catalog Department.

IDA G. MUNSON, in charge.

The work of the Catalog Department is proceeding along two parallel lines; the cataloging of the regular additions of new books, and the recataloging of much material needing a fuller treatment than it has heretofore received.

During January, February and March 1718 volumes were cataloged, adding 6798 cards to the catalog.

California Department.

EUDORA GABOUTTE, in charge.

The California Department aims to have a thoroughly good collection of books on the history and description, resources and industries of the State, as well as the works of California authors in all departments of literature. These are made accessible by means of a card catalog. Full names and biographical sketches of California authors, artists, musicians, pioneers and early settlers are being secured, together with their photographs. The collection of bound periodicals is quite large. The Department also contains about 5000 bound volumes of newspapers, a file of which is being indexed with reference to the history of the State. Students will be assisted in their work.

Pioneers and Early Settlers.

Several cards bearing very early dates of arrival have been received during the last three months.

Waldemar Francisco De Lahse arrived in 1838. He came direct from France

on a French man-of-war to San Francisco, where he acted as French Consul from 1838 to 1857. He was professor of languages in the State University from 1869 to 1878. He was a man of much culture, having been educated in the Paris University. Before coming to California Mr De Lahse was Major of field artillery in the army of France. His death occurred at Hamburg, Germany, May, 1899.

Pierre Sainsevain, another French pioneer, arrived July 4, 1839. Mr Sainsevain was a member of the first constitutional convention, 1849. He also built the first sawmill, 1843, the first flour mill, 1844, and the first vessel, 1845. The latter was a small schooner, 150 tons. In 1853 he planted the first large vineyard, 40,000 vines, in Santa Clara county. Mr Sainsevain was closely allied with the wine industry for many years. He returned to Bordeaux, France, where he died October 4, 1904.

Mary Murphy Covillaud was a member of the Donner party. Marysville was named in her honor and was her home up to the time of her death, which occurred in 1867.

William B. Osburn, who is still living, arrived in 1847. He married into the Flores family and has many interesting stories to tell of the "splendid idle forties."

Many other interesting cards have been received as follows: Charles Reed Conway, George Forbes, Stephen White Foster, Richard Gelatt, Mr and Mrs Joseph Valentine Matthis, John Nelson, Isaac Smith Pear, Mary Kimball Rhodes and Mr and Mrs James Jackson Rogers.

The most valuable donations received have been pictures. These will be mentioned under the proper heading. The usual number of books, pamphlets, together with several manuscripts, have been received. The *Marysville democrat* presented six volumes of the *Sacramento union* covering the period 1861-1863. Two receipts issued by the Soldiers' Aid Society of Grass Valley during the civil war are of interest.

Catalog.

The California catalog has been increased by the addition of 169 cards.

Pictures.

The Department has been especially fortunate in securing valuable pictures since the first of the year.

The most valuable donation is a large oil painting of Sutter's Fort as it appeared in 1848. It was painted by Manuel Valencia and was given to the Library by Mrs Catherine E. Allen of Sacramento.

W. G. Scott of Bishop, Inyo county, placed in the California Department thirty-three large photographs of scenery along the east side of the Sierra Nevada mountains. The pictures are beautiful specimens of photographic art. Mr Scott also donated sixty-three post cards, views of the same region.

Robert E. Reinhart presented some very valuable pictures of Death Valley;

*Native Californians.

also of early mining scenes and a photograph of the famous twenty mule borax team.

A set of pictures of Kearney Park and of Theodore Kearney has been added to the collection by the Southern Pacific Company, while reproductions of the works of California artists, together with pictures of authors, pioneers, artists and musicians, have come in as usual.

CALIFORNIA LIBRARY ASSOCIATION ANNUAL MEETING

AND

CALIFORNIA COUNTY LIBRARIANS' CONVENTION LAKE TAHOE, JUNE 17 TO 22.

The seventeenth annual meeting of the California Library Association was held at Tahoe Tavern, Lake Tahoe, June 17 to 22, 1912, jointly with the third annual convention of the California County Librarians. President Gillis called the meeting to order at 2 o'clock on the afternoon of June 17th in one of the rooms of the Casino overlooking the beautiful lake.

The notes of the meeting which follow will be supplemented by the publication of the addresses and papers in the "Handbook and Proceedings of the annual meeting, 1912," to be published later. The meetings were informal, full of interest and enthusiasm, with free discussion of all topics.

The register shows an attendance of 123, representing 39 public libraries, 12 county libraries, 4 state, university and college libraries, 4 institutional libraries, and 3 libraries in other states.

Folk songs.

At the opening session Mrs Mary Roberts Coolidge, of Berkeley, gave the first of a series of short talks on the folk songs of the different nations. She sang three old English ballads, explaining their origin and meaning. The groups on the succeeding days were Scotch ballads, Old French ballads, Old Spanish folk songs and Songs of the Pyrenees. On Thursday Mrs Coolidge's subject was "Songs of the far west," bringing her week's contribution down to our own time and surroundings by singing Mexican-Spanish songs, cowboy songs, and pioneer ballads. She then made a plea for simple home singing, for a discrimination between the cheap popular and the good popular songs, and showed in words, as she had the entire week by her songs, that the taste may be simple but the music may nevertheless have all merit. These ballad talks "gave an exquisite charm to the sessions," to quote one of the delegates, and one song, "Malbrough," so moved the audience "with

the tears of a thousand years" that a vote of thanks was given standing.

Foreigners in California.

With the opening of the Panama Canal, California expects a great increase in immigration. In an address on "California and the immigrant," Miss Grace E. Trumbull, of the California Development Board, emphasized the necessity of being prepared for this immigration. There are many problems to meet in distribution, protection, instruction and Americanizing of the immigrants. "The part of libraries in the working out of the immigration problems is twofold: first educating the Americans and, second, educating the immigrants themselves." Although the attitude toward foreigners is probably as generous in California as anywhere in the country, we have also the spirit of racial narrowness, being too ready to think slightly of the immigrants. "During the last ten years the list of human-interest immigration books has lengthened hopefully, but it is to be hoped that it will be doubled many times in the next few years, and that the libraries may be instrumental in stimulating an interest in the kind of reading which will teach Americans *who* the people are that are coming to our land, and *what* they are. The libraries, in meeting the educative problems that relate to immigration will find that the need of enlightenment is not confined to the foreign population."

The fact that the second generation of the immigrant population tends to an increase in the percentage of crimes, shows the necessity of educating the parents as well as the children. "If we could possess the foreign-language books which would contain some part at least of the knowledge that their children are acquiring in English, if we could let them know that such reading matter were available and free, many—not all by any

means—of the parents would be eager to get hold of it.”

“The county librarians certainly have an opportunity for constructive work among foreigners in California which would not be found elsewhere in rural districts. Forrest Chriasy says that the agricultural population of this State resembles a ‘family reunion of Tower of Babel survivors.’”

“In the scheme of distribution and protection which is ultimately to be worked out for the immigrants coming to California, it seems that the libraries should be recognized as one of the greatest forces for the final adjustment, the fitting into American life of the foreigners.”

It was plainly shown that the closest coöperation can and should exist between the libraries of the state and the California Development Board, especially with reference to the immigration problem.

Miss Trumbull's talk was followed by a discussion of what the libraries are doing to supply the foreigner with books. F. B. Graves of the Mechanics' Mercantile Library, reporting for San Francisco, Miss Minnie M. Oakley for the Los Angeles Public Library, and Miss Mary Barmby for the Alameda County Library.

Forestry.

A very timely paper was that of G. M. Homans, the State Forester, on “Forestry, one of the most vital problems of the day,” showing that in California, far more than in most states, forestry is of immediate, practical concern to the people, and that it is a matter which concerns the individual and the corporation as well as all the people collectively. “The time has now come when California must ‘get busy.’ And why must we do this? Why this constantly recurring talk of forests and forest protection? The answer to these questions is simply and solely because forestry is a business necessity. Wood and water are the first needs that must be satisfied in any community. Both are products of the forests. The truth of these assertions is self-evident. But, notwithstanding, there is much delay in putting into practice things which everybody agrees ought to be done to make our forests render their full quota of service.” The view across Lake Tahoe added point to Mr. Homans' talk. The mountains on the east side are

practically denuded of trees, having been stripped to furnish timbering for the Comstock mines. The discussion of the paper brought out the statement that libraries should do their share in educating the people on forest conservation, not only by having all the available material on the subject but by letting the people know that they have it.

California history.

The history of the State always appeals to a California audience and the several contributions on the program were received with the closest attention. Miss Eudora Garoutte, of the California Department of the State Library, took for her subject “California history for the people.” She gave a résumé of the history, of the people who made it, and of the records, with an account in detail of the work of collecting these records and making them available for the use of the people in the state depository, the California State Library. Miss Anne Hadden, of the Palo Alto Public Library, in the “County Historical Department of the future,” presented a plan by which the gathering and preserving of California history can be combined with the library work of the county library. The idea is for the county library to add this historical feature and to begin now to gather all local history for preservation and for the use of the people of the locality, sending to the California Department of the State Library all material of state-wide importance. One of the evenings was devoted to an illustrated lecture by Charles B. Turrill of San Francisco, a most enthusiastic collector of Californiana. His subject was “Early California,” and his pictures included scenes in the mines, views of the older towns, construction of the first railroad, portraits of pioneers, and of prominent men of the early days, facsimiles of title-pages of old books, and of manuscripts.

Allies of the library.

In a talk on “Two natural allies of the library,” Charles S. Greene, Librarian of the Oakland Free Library, outlined briefly what may be accomplished by combination, coöperation and coördination of the museum, the art gallery and the library to the end that all may be live institutions serving all the people.

Commonwealth Club.

As a representative of the Commonwealth Club of California, R. S. Gray, of San Francisco, attended the meeting and contributed an account of the work of the club. "Briefly expressed it might be said that the work of the club is locally applied sociology." Of particular interest to library people is the plan to build up a working civic library which shall as far as possible include all material necessary to enable students to inform themselves in respect to social, economic and industrial conditions and problems of California and its principal municipalities.

Library training.

To the great pleasure of the meeting, Miss Faith E. Smith, director of the Training Class of the Chicago Public Library, stopped over a day at Tahoe on her way to Berkeley to join the summer school faculty. She told of the plans for the class in library methods in the University of California summer school, and answered many questions about the class, and about the work in the Chicago class.

On the following day Miss Margaret Dold read a delightful paper on her work with the class in library training in the Chico Normal School.

Charles S. Greene, chairman of the committee on library training school, reported that while the present year has not been favorable, there is no less desire and no less need of a permanent school. The work of the summer school will be of great value but will not touch the need. While there is no report of activity on the part of the committee there is a deeper determination that there shall be such a school.

Work with clubs and schools.

Miss Susan T. Smith, of the Reference Department of the State Library, spoke on "Work with the study clubs and high schools." She said that anticipation of the wants and needs of the reading public during the different seasons of the year, is the keynote of successful reference work, especially if attempted at long-distance range. She emphasized the necessity of anticipation, especially in regard to the work with clubs and high schools. The work of the State Library with clubs consists in covering the topics of a program with a suggestive list of books, or

with a selected collection of books; of making a selection of sub-reading for discussion by the club to fit into the main theme of the program, with names of books available. At present this work all falls into a brief space of time between the last of August and the middle of September. Many clubs choose the same subjects for approximately the same dates and it is difficult to find enough books to go round. Libraries could help to remedy this difficulty by urging clubs to send in the subjects of their programs at the end of the club year instead of the beginning. County librarians could secure at least a tentative program from all the clubs in the county or make suggestions for reasonable standard subjects to be chosen and juggle the dates so there is less conflict, giving the State Library due notice.

Practically the same points apply to the work with the high schools. Subjects for debate are selected at the last moment, during the library's busiest season, without any discrimination as to the fitness of the subject for debate, or any regard for the use of the material by other high schools in the State, or even for those in the same community. County librarians are urged to educate the principal and his staff to appreciate the need of putting high school debate work on the same basis of direction as are other student affairs; second, to educate the students to be forehanded, to select debatable subjects, with due consideration of the needs of other high schools and to make the best and wisest use of the material already at hand.

The next speaker was A. J. Cloud, Deputy Superintendent of Schools of San Francisco, "High school debates in practice." He said that the great difficulty in high school debate work lies in the fact that the teachers take so little interest. The teachers are trained to take an interest in written work only, not in oral expression. The debating leagues are frequently composed entirely of students still in school. This explains the selection of questions for debate. The students need regulation by maturer minds and they need training in both formal and informal debating. There are few gifted orators, but by careful drilling all pupils can be trained to think and to speak on their feet, more or less effectively. They should

all be required to study both sides of a question, so that they can meet all arguments. If this were the rule they would soon learn to choose debatable subjects. Mr Cloud suggested closer coöperation between the libraries and the high schools as a step toward the solution of the problem of debates and debate material.

School libraries.

The county free library and the school is a subject which shows an illuminating addition to the possibilities of the county work. Miss Stella Huntington, of Yolo County, told of the way the schools are being served there, of the coöperation between the schools and the county free library, and of the broad and effective provisions of the law making such work possible. Twelve school districts, one fourth of the districts in the county, are now being served by the county library and it is expected that next year there will be twenty or thirty. At first the school trustees are conservative, but when they realize what it means to have access to a large supply of books, and to receive twenty or more fresh books in each shipment, with the privilege of exchange when desired, they are more than satisfied. The school library money has greatly increased purchasing power when handled by the county librarian who knows where and how to buy books.

Following Miss Huntington, Mrs May Dexter-Henshall spoke enthusiastically on "What the Yolo County Free Library has accomplished in its first year's work with the schools, from the point of view of the County Superintendent of Schools." She read numerous letters from teachers giving enthusiastic approval of the county free library service. She dwelt particularly on the great value of having the expert advice of a trained librarian to guide the children's reading with a certainty that the busy teacher cannot always muster. She said that the coming of the county free library solved the problem of the county teachers' library of 2,500 volumes. Since it has been turned over to the county library it is available to teachers all over the county, when before it was used only by the teachers in and near Woodland.

Teachers', Law and other libraries.

Other counties then reported on work with the schools, on using county teach-

ers' libraries and on the county law libraries. For Sacramento County, L. W. Ripley reported that work with the district schools was begun on the first of the year and that the results were satisfactory. For Alameda County, Miss Mary Barmby said that they expected to begin work with the schools in the fall; that they have cataloged the county teachers' library and that it is now used by the teachers; that they have promised to help the county law library in cataloging and that they have borrowed many books from the State Library for the Law library. For Tulare County, Miss Jennie Herrman reported the county library has taken over the county teachers' library, which is a very good one and much used. They hope to be able to house the Law library later. For Merced County, Miss Winifred H. Bigley reported that the Law library was turned over to the county free library last year, but they will not be able to house it until they move into the new building. Then a room will be provided for the lawyers.

Miss Sarah McCardle, of Fresno County, spoke on "Helping the other libraries in the county." At first the libraries, there are five of them, were a little afraid of being absorbed by the county library, but after their books had been put in order and cataloged, and in some cases rebound by the county library, they began to realize how much it meant to them and have begged to be taken in to the county system. They are very appreciative of the county free library service.

For Alameda County, Miss Jean D. Baird reported that there are two Carnegie libraries in the county which have no money left for books. The county library has cataloged their books and is trying to supply them with the books they need.

Repeated reference was made by the county librarians to the use they made of books from the State Library.

Branches.

A session was devoted to discussion of branches. Mrs Frances B. Linn, of Santa Barbara County, told of the opening up of a branch which is proving, perhaps, the most vital social and educational feature in the community, where only a short time ago the people had hope-

lessly thought nothing could possibly mean a help to the place. She also told of the value Santa Barbara County branches are receiving from the visits of persons trained in library work, for the county librarian goes all about the county from time to time, bringing enthusiasm and fresh interest to the communities.

Miss Anne Madison, of Imperial County, told of the enthusiasm the people there are showing in the establishment and service of the branches.

L. W. Ripley, of Sacramento, told of the value of visits to the different places in his county. Miss Barmby, of Alameda County, and Miss Bigley, of Merced County, told of the great good which has been derived from the meetings of the branch library custodians in their counties.

Miss Victoria Ellis, of the Long Beach Public Library, told of the success of the three branches of that library, one of which is used as a social center. The others are in school buildings.

Miss Minnie M. Oakley, of the Los Angeles Public Library, reported that they have 17 branches and 20 deposit stations. Quarters are provided in four playground clubhouses. There is a library in a department store rest room, also in an old ladies' home. There are four Sunday school branches.

San Diego has one branch, said Mrs Hannah P. Davison, of the San Diego Public Library, at La Jolla, twelve miles from San Diego, and it is a great success. They are planning for more branches.

In Redlands, Miss Ardena M. Chapin, of the A. K. Smiley Public Library, reported that they have just opened a branch for the summer months.

Printed book lists.

San Joaquin County handles more books than any other county. W. F. Clowdsley attributes this large use of books mainly to his plan of advertising by means of printed book lists on all subjects of interest to the people. These are published every week in the newspapers and requests come in from all over the county in response. Mr Clowdsley read letters from schools and clubs expressing appreciation of the service given by the San Joaquin County Library.

County free library handbook.

L. W. Ripley, of Sacramento, reported progress in the preparation of the County free library handbook. He said it had reached a point where the help of several people was needed, and he suggested that a conference of county librarians be held some time during the meeting.

"Tricks of the trade."

At another session the topic, "Tricks of the trade" served to open a discussion on many things found especially effectual. For Alameda County, Miss Barmby told of the pictures they have been buying, Braun Clement & Co. prints. The branches are supplied with frames of uniform size and the pictures are changed frequently. Miss Ida M. Reagan, of Madera County, plans to enclose a dodger containing a concise statement about the county free library with the sample ballots sent to all voters. Miss Bigley, of Merced County, expects to supply foreign books and to subscribe for three periodicals in foreign languages. The money received from fines is used to beautify the branches. J. F. Daniels, of Riverside County, believes in getting personally acquainted with the people and the country. Mrs Linn, of Santa Barbara County, finds useful as a permanent bulletin a county map on which the county free library distributing points are marked. She suggested the use of a sign for the branches and asked if a uniform sign could not be adopted to be used by all the counties, a sign that would mean book service, just as the blue and white telephone sign means telephone service. As a result of the discussion on signs the President appointed a committee, consisting of Mrs Linn, Miss Jennie Herrman and L. W. Ripley, to take up the matter and to report at the next meeting.

For Stanislaus County, Miss Cornelia D. Provines reported that the city and county books are accessioned separately and so designated that they are readily distinguished. In Tulare County, Miss Herrman has the custodians of the branches mark the application blanks to show whether the applicant is an adult, a young person, or a child. This is a great help in selecting appropriate books to send out to the branches. Miss Hunt-

ington, of Yolo County, pastes in the back of a new book the book review cut from the paper book jacket. The people find this helpful in selecting books.

Lectures, etc.

Besides the eight regular sessions, there were three lectures in the evenings. On Tuesday evening John P. Clum gave a travel-lecture, with beautiful views, from Southern California to Lake Tahoe and the Yosemite Valley and on to the Golden Gate. On Thursday evening his subject was Alaska. On Wednesday evening Mr. Turrill gave his lecture on Early California.

On Monday evening a very informal "progressive" reception was held. Large signs indicated the various stations, Camp Glen Alpine, Camp Heather Lake, Camp Emerald Bay, Camp Fallen Leaf Lake, Camp Lake of the Woods and Camp Desolation Valley, at which were found clever guessing games, a camp fire, and at the last a bowl of punch. The programs showed each person where he belonged and Mr. Greene, as Megaphone, announced "time's up, move on to the next group."

One day, Friday, was given to the trip around the lake on the steamer Tahoe.

Trustees' section.

The Trustees' Section met on June 18th and elected the following officers for the ensuing year: President, Charles S. Greene, Trustee of California State Library; Vice-President, Charles W. Salterback, Trustee of Monterey Public Library; Secretary, A. E. Bunker, Trustee of Pacific Grove Public Library.

Reports of officers and committees.

In his report the President commended the work of the district officers during the year. Meetings were held in five districts, with good attendance. The membership of the Association is growing, and there is a marked spirit of helpfulness and cooperation among the members. The officers feel especially grateful to those who have contributed to the success of the district meetings and of the annual meeting.

The report of the Secretary-Treasurer showed that the balance on May 18, 1911, was \$527.95, the receipts during the year were \$644.28, the expenditures were \$476.64, leaving a balance on June 14,

1912, of \$695.59. This report was verified by the Auditing Committee.

The reports of the various committees were received. That on Library training school has been referred to above. For the Committee on Bibliographic work Miss Eudora Garoutte reported that the 21,000 cards indexing ten California magazines from 1854 to 1908 are filed at the State Library, subject cards having been made during the last year. They are available for use and it is hoped that all will feel free to write for references. After discussion it was voted that the matter of bringing the index down to date and of having it printed be referred to the Executive Committee with power to act.

The Nominating Committee presented the following ticket: President, J. L. Gillis; Vice-President, Caroline S. Waters; Secretary-Treasurer, Alice J. Haines. There were no other nominations and the ticket was unanimously elected.

Everett R. Perry, chairman of the Resolutions Committee, presented the following resolutions which were adopted:

Resolved, That the California Library Association cordially invites the American Library Association to hold its conference for 1915 in San Francisco at the time of the Exposition which will commemorate the opening of the Panama Canal.

WHEREAS, The Committee on the Relation of the A. L. A. and State Library Associations expressed itself as "desirous of receiving suggestions from the various state associations regarding the basis and methods for affiliation";

Resolved, That the California Library Association believes that affiliation with the national organization would be advantageous and suggests as the first step toward such affiliation state representation in the A. L. A. Council on the basis of one delegate from each state having an association.

Resolved, That the hearty thanks of the California Library Association are hereby extended to those who, though outside the profession, have shown their interest in our work by being present, and who have greatly contributed to the success of the meeting by delivering lectures on which they have shown themselves especially well prepared.

Resolved, That the Association hereby expresses its thanks to the management of Tahoe Tavern for the unflinching courtesy shown toward its members during this meeting.

CALIFORNIA LIBRARIES.

All libraries are listed except elementary public school and church libraries and those which belong to private individuals. They are arranged alphabetically by place under counties and counties are arranged alphabetically. To determine the county in which any place is located see list following these introductory paragraphs.

Those libraries are marked with an asterisk (*) which are not free to the public for either loan or reference purposes.

Libraries marked with † are United States depository libraries; those marked with § are depositories for the Official gazette of the Patent Office; those marked with || are geological depositories.

Statistics are printed for the quarter, but are sent in by the libraries for each month separately in most cases, and will be furnished to any one who wishes them in the monthly form upon application to California State Library. So that the figures for circulation may be uniform, current magazines are included in the total whether reported that way or not.

Blanks for April, May and June statistics were sent to all of the libraries in June, except those in high schools and other educational institutions that are closed the end of June.

Blanks for annual reports were sent to all of the free public libraries and the county free libraries in June.

There are in California 17 county free libraries; 1 library district library; 2 high school district libraries; 124 libraries supported by city taxation; 66 law libraries, of which 55 are county law libraries; 58 county teachers' libraries; 318 libraries in educational institutions, of which 5 are universities, 9 colleges, 6 normal schools, 229 public high schools, 69 private schools and other institutions; 50 miscellaneous institution libraries and 68 association or society libraries; 57 subscription libraries. In connection with the above libraries there are 331 branches and deposit stations.

There are 114 library buildings, of which 98 were gifts, and of these gifts 83 are from Andrew Carnegie. Of these 83 Carnegie buildings, 7 are under construction, and 1 is being planned.

DIRECTORY FOR LIBRARY SUPPLIES AND OTHER ITEMS OF GENERAL INTEREST.

Many public libraries waste a great deal of time and money before they find good places to get supplies. The plan is to give all libraries the benefit of the experience of the older libraries of the state by listing under different heads the houses that have been found to give satisfaction, the names and addresses being furnished by the older and larger libraries of California. In this way suggestions will be given as to where different sorts of books may be bought, where books may be rebound or periodicals bound, where library furniture may be bought, etc., both in California and in the East.

If any information is needed about the firms listed below which can not be obtained from the firms themselves, the names of the libraries recommending the different ones will be sent to any library upon application to the Extension Department of the State Library.

In this same section space will be given to any libraries of California in which to list numbers of periodicals, etc., wanted to complete files; books especially needed at any time, either to purchase or borrow; needs of any sort, such as an assistant to catalog the library, or assist, etc. Space will also be given to any librarian who wants a permanent position in a library, or who wants special work, such as cataloging small libraries, etc.

The section is entirely at the disposal of libraries and librarians for the purpose of mutual aid.

Annual Meeting.

A short account of the annual meeting is given on page 295. The meeting will be more fully reported in the Handbook and proceedings of the annual meeting, 1912, which will be published at an early date.

Sixth District Meeting.

A meeting of the sixth district of the California Library Association was held at Riverside on Friday, April 26, 1912, and was attended by about sixty-five persons, including seven library trustees, being the largest meeting in the history of this district.

Those who were fortunate enough to arrive early were conducted through the beautiful Glenwood Hotel by a guide who explained the many interesting features of this unique hostelry, and also were privileged to hear a brief concert on the pipe organ.

At eleven o'clock, Mrs H. P. Davison, President, called the meeting to order in the Cloister room of the hotel, and in the absence of Miss Jacobus, the Secretary, appointed Miss Chapin, of Redlands, as Secretary pro tem. After a few remarks by Mrs Davison, who expressed the hope that the two sessions of the day would be informal and with free discussions, the Hon. W. L. Peters, Mayor of Riverside, was introduced and gave the address of welcome. Mr Peters said that nothing is more beneficial than to get together occasionally and rub elbows, and the best meetings are the informal ones. He considers that no branch of the city department is brought closer to the people than the city library, and that communities are beginning to realize this more and more.

Mrs Davison responded for the association. The President then announced the following chairmen of committees, who were instructed to appoint two members

to serve with them, if deemed advisable: Committee on Resolutions, K. H. Field, Redlands; Committee on Library Training, J. F. Daniels, Riverside; Committee on Communications to the State Library, Arlena M. Chapin, Redlands.

The President next introduced the Hon. H. L. Carnahan, President of the Board of Trustees of the Riverside Public Library. Mr Carnahan spoke on "The plan of agricultural service for the Public Library," and in an interesting manner told of the beginnings of the special agricultural service of the Riverside library. He said every library should have a hobby. Riverside being a farming community it seemed best to supply books which would be most useful to the farmer. "A few years ago there were a few scientific farmers who were trying to find how best to do things, and I thought we ought to put the results of their efforts, which they had published in bulletins, into the hands of the people. So I decided that this being the ideal farming community of this part of the country, it would make our library the foremost one out here. It was slow in starting. I called together all of the experts of the community on dry farming, entomology, cultivation of orange groves, fertilization, gardening, etc., and asked them to be a committee to help collect material for the library along their special lines of work. We are now gathering together everything obtainable concerning farming in its broadest sense and making it accessible. Bulletins have been issued. We are becoming known, and demands are coming in from outside communities and from experts. The best method to give service is to collect the material and then advertise it, through newspapers and other media." As a result of these efforts there is a tax levy in Riverside of about \$1.00 for every person in the city. People approve of the library's methods and are deriving benefit from it.

Joseph F. Daniels, Librarian of the Riverside Public Library, then addressed the meeting on "Agricultural documents." Mr Daniels has built up two extensive agricultural libraries and has had a large experience along this line which enabled him to give some valuable advice to those present. He said there are three things to be considered about agricultural documents: What are they? How can we

get them? and How can we make use of them? It should be borne in mind that not all state publications come from the agricultural experiment stations; some are from the Commissioner of Agriculture. Then too there are congresses, such as the Irrigation Congress, Dry Farming Congress, etc., which publish valuable papers. Canadian documents are extremely valuable, and are usually published with more care than the U. S. documents; especially valuable are the publications on husbandry.

How to get them: Write direct to the Agricultural department, or, to your congressman. Cultivate people and indirectly you may get what you want. Only the very recent documents are in the congressman's quota and he cannot send anything unless everything is itemized. "The shotgun policy" is to scatter demands everywhere, but the best way is to get acquainted, with the Librarian of Congress and others in authority, and state clearly just what you want. How to arrange them: Each library probably has its own method. Pamphlet cases are good. Sort and classify and catalog them. By constant handling you will become familiar with them. How to use them: Give the inquirer what you have and make a mental note that you will obtain more immediately. Make your own plans for arrangement as will best meet your needs. Use what you have and don't spend time wishing for something you haven't.

At twelve o'clock the meeting adjourned to go to the dining room of the hotel, where the members were the guests of the Riverside Library Board at luncheon.

From one until three o'clock was spent in inspecting the public library. This was perhaps the most instructive part of the day for it showed up many desirable features of library work which could well be followed by other libraries. The systematic manner in which the work is being carried on under the librarianship of Mr Daniels elicited much praise from the visitors.

The afternoon session, which began at three o'clock, consisted of informal talks, followed by brief discussions, on two or three topics of general interest to librarians. First there were read short statements from a half dozen members of what had been the greatest accomplish-

ment of the year in the library. These statements were sent by absent members in response to a request of the president.

The report of the Committee on Resolutions extended the thanks of the members to the District President, to the Directors and the Librarian of the Riverside Public Library, to the Mayor, to Mr Frank Miller of the Glenwood Mission Inn and to all others who aided in making the meeting a success.

The discussions were opened by a short talk by Miss Steffa, Pomona College Library, on "More relaxation for librarians." Miss Steffa said the most ideal relaxation is to go beyond the bounds of civilization, to forget work and libraries entirely, but the vacations of a librarian are usually too short for her to relax. She should, however, relax somewhat each day. Librarians work as conscientiously and closely as teachers and do not have half as much vacation. In the discussion that followed Mr Carnahan said he thought if librarians took relaxation every day they would not need long vacations. If the librarian enjoys his work he will not tire. The Riverside library has a rest room with no chairs, only couches, so that the assistants must lie down on them and really rest; there is no reading matter there as they must get away from books. The Librarian should take a vacation which is a diversion.

Miss Beckley of Los Angeles then gave a few helpful suggestions on "The best expenditures for the picture department in libraries limited to \$25 per year." Her strongest emphasis was placed on the un wisdom of buying cheap photographs. "Do not purchase cheap photographs. By far the best ones are Braun, Clement & Company photographs. I would prefer to have ten good ones than a hundred cheap ones which will fade. You cannot get good values from the latter." One or two good pictures should be added each year, but have them the best. The Los Angeles Public Library will lend photographs if the borrowing library pays the transportation. Most colored prints are worthless because the color is not correct. Braun, Clement & Company and the Berlin Photographic Co. are the best firms. The pictures should be framed artistically and to suit the subject.

Miss Waters of San Bernardino then

opened the discussion on "How can teachers help libraries?" At San Bernardino the teachers are asked to make out lists in advance so that the demand will not come at the busiest time of day. Each teacher is visited personally at the beginning of the year and urged to make out lists for supplementary reading. Mr Daniels said that five schoolhouses had been selected at Riverside in which have been placed about 200 books. By this means they are trying to establish a good schoolroom service. The teacher should be given the supervision and choice of the books.

Mr Field talked briefly on "Book Reviews." He said that reviews had come to be controlled so largely by publishing houses that a large part of them were undependable. The Bookman and Nation reviews are valuable.

Those in attendance were: Alhambra, Mrs M. P. Smith; Azusa, Miss A. M. Taylor; Claremont, Miss Brown, Miss Colcord, Miss Glyde Maynard, Miss Julia Steffa; Colton, Mrs A. E. Spragins; Corona, Miss A. M. Bell, Mrs Holloway, Miss G. M. Taber; Glendale, Mrs A. J. Danford; Hollywood, Mrs E. B. Jones, Miss Spencer; Imperial, Mrs J. H. Hatch; Los Angeles, Miss A. McC. Examinations.

No date has been set for the next examination. All who have applications on file with the Chairman of the Board will be duly notified.

The examinations are not of a conventional nature concerning literary and historical subjects, but more especially concerning those pertinent to the conduct of a county free library. And though the questions may not deal largely with technical library subjects, yet it is not advisable for any one to take the examination who has not had library training and experience, as a thorough understanding of library technique is necessary for the successful conduct of a county library system.

The Board of Library Examiners has decided that for the present at least examinations will not be given outside the state, for many reasons.

Experience has shown that only persons who have lived in the state and have done library work in a way to gain a personal knowledge of California conditions really understand the county library plan for California.

The aim of the examination is to see

how thorough is the applicant's knowledge of the conditions under which the county library work must be carried on, and of the problems to be met in the work as it is actually being done in this state.

One must have technical library knowledge in order to conduct a county library system successfully and experience in other fields may prove a valuable asset, but a real understanding of the work here is absolutely necessary. And those who do understand what we are doing and what we hope to do, will not find the examination difficult.

Again, the members of the Board feel that the oral examination which follows the written is most important. They feel that they can not fairly judge of an applicant's qualifications without meeting him in this way.

When a county is ready to organize the county library and to appoint the county librarian, the candidate should be at hand to apply in person for the position, and be ready to accept the appointment if it is offered, and to begin work immediately.

In view of these facts it would seem unwise at the present time to give the examinations anywhere except under the direct supervision of the Board of Library Examiners.

Sample examination questions can not be furnished.

County free library law.

Reference Department.

SUSAN T. SMITH, in charge.

The Reference Department furnishes information to any inquirer. It furnishes books to public libraries, or any other educational institution, on application; to individuals through the signature of a state officer, of the Librarian of the local library or of the official head of any other educational institution or on receipt of a \$5.00 deposit; to a club or grange on request of its president, secretary or librarian.

The State Library pays the cost of transportation to any one borrowing through a county free library, but in every other instance the charges both ways are paid by the borrower. Wells Fargo Express Co. has granted a half-merchandise rate to the borrower on return shipments.

The increasing use of the Union Catalog* filed at the State Library demonstrates its extreme value as a medium of exchange. During the past month, especially, we have been able to fill many requests for books not in the State Library, by being able to refer the borrower to the nearest library having the book wanted.

If librarians will list periodical files, foreign books and any unusual books as Californiana, rare editions, etc., by sending a card for each to the State Library, the latter will in time become a great clearing house for the entire state. Perhaps those public and school libraries having classes in library science could have this listing done by the students, and have listed in this way also other collections in the vicinity beside those where the classes are being held.

Large Loans Collection.

The Reference Department also sends out groups of books up to 1000 volumes to counties starting county free libraries. These books are from a store room collection called Large loans collection. The greater part of the books in the collection are the traveling libraries books. Publishers' gifts and duplicates not needed in the general departments of the library are also being placed in this collection.

These loans are sent by freight, the county free libraries borrowing them paying the freight charges.

In May, a group of 411 volumes was loaned from this collection to the Imperial County Free Library; and in June a group of 877 volumes was loaned to the Riverside County Free Library.

*For what the Union Catalog at present covers, see page 406.

Catalog Department.

IDA G. MUNSON, in charge.

The work of the Catalog Department is proceeding along two parallel lines; the cataloging of the regular additions of new books, and the recataloging of much material needing a fuller treatment than it has heretofore received.

During April, May and June 2382 volumes were cataloged, adding 10,111 cards to the catalog.

California Department.

EUDORA GAROUTTE, in charge.

The California Department aims to have a thoroughly good collection of books on the history and description, resources and industries of the State, as well as the works of California authors in all departments of literature. These are made accessible by means of a card catalog. Full names and biographical sketches of California authors, artists, musicians, pioneers and early settlers are being secured, together with their photographs. The collection of bound periodicals is quite large. The Department also contains about 5000 bound volumes of newspapers, a file of which is being indexed with reference to the history of the State. Students will be assisted in their work.

Pioneers and Early Settlers.

A number of most valuable cards have been received during the last three months.

James Denman was principal of the first free school organized under the California state system. The school was subsequently named for him. It was first housed in a small shack at Second and Minna streets, then known as Happy Valley. Since the death of Mr Denman, San Francisco has named one of its largest grammar schools for him. He was superintendent of schools in San Francisco and as such organized the Boys' High, the Girls' High and the Valencia. Hayes Valley, Clement and Lincoln Grammar schools. After his retirement from the school department he served on the board of supervisors and took an active part in all civic matters. He died in San Francisco, February 9, 1900.

Much interesting material regarding Governor John G. Downey has been furnished by his sister, Mrs Eleanor Martin. Governor Downey during his term of office vetoed the famous Bulkhead bill, thereby saving to San Francisco her water front. He held many public offices and was noted for his many public and private benevolences.

Samuel Wood Johnson of San Diego arrived in 1846, having crossed the plains with Governor Boggs of Missouri. He served with Frémont during the Conquest of California.

Colonel Thomas Baker, after whom Bakersfield was named, came to the State in 1850 and served in the legislature as both senator and assemblyman. He died in Bakersfield November 24, 1872.

James de Fremery was a prominent "49er." He was the Dutch Consul at San Francisco for some time; also founder and president of the Savings Union and president of the San Francisco Chamber of Commerce. His death occurred May, 1899.

Other cards of importance received are as follows: Alfred Bailey, Charles Clark Farnsworth, Robert Logan, William McKay, Welwood Murray, John Culbertson Rice, Ellen Tracy and Nathan Weisbaum.

California Artists.

The following artist cards have been received since the last issue of *News Notes of California Libraries*:

de Longpré, Paul
Vierra, Carlos

California Authors.

The following author cards have been received since the last issue of *News Notes of California Libraries*:

Cook, Mrs Fanny (Bruce)
Mrs John Jay Cook
Darling, Mrs Esther (Birdsall)
Mrs Charles Edward Darling
Ferguson, Mrs Esther (Baldwin)
Mrs S. B. Ferguson
Frémont, Elizabeth Benton
Rendtorff, Karl Gustav

Wolf, Frank E.

Newspaper Index.

The index covers the following periods: August 15, 1846, to April 16, 1891; also January, 1894, to March, 1905.

The newspaper index is being revised and placed in a modern filing case. It now contains about 175,000 cards. Because of its size and the fact that a number of people have worked on it at different times, it became necessary to give it a thorough revision. This work is now about completed and the index is in excellent condition for reference work.

Donations.

It will be impossible to mention all the valuable gifts received during the past three months.

The largest donation comes from the estate of E. W. Morse. The collection consists of between two and three thousand commercial documents, also letters, account books, diaries and early San Diego papers. The value of this material can not be estimated until it is gone over by an expert. Undoubtedly many things of interest will come to light and mention will be made of them in a future issue of this publication.

Mrs George T. Cobb of Cambridge, Mass., has sent in a number of old ballots, manuscripts, bank and express notes, old newspapers, together with an old flint lock rifle carried by her father. Isaac Pear, while a member of the Vigilance Committee of 1856.

M. D. Fairchild has placed in the department reminiscences and original material, as has also Mrs E. M. Whitcomb. The latter collection contains 98 original documents, showing the business transactions of Captain John G. North, who was closely identified with early navigation on the Sacramento river.

A manuscript of an early song sung by Madam Anna Bishop is unique. It was presented by Charles A. McCurrie.

Two old cattle brands have been placed on file for the use of the student of the cattle industry.

Mrs Wallace A. Briggs donated a book, "Sejanus," edited by her son, W. D. Briggs of Stanford University. A number of autograph copies of books by California authors have been received, together with numerous pamphlets.

Pictures.

The pictures received are as usual of much interest. An oil painting of Governor Pio Pico was presented by a niece, Mrs George A. Johnson of Los Angeles. It was painted in 1847.

Charles F. Curry gave to the department a framed group picture of Siskiyou county pioneers. We are again indebted to Hon. John Daggett for two historic pictures, one of the stages ready for their last trip, taken at the time of the driving of the last spike of the California and Oregon Railroad; the other is a group picture of the Modoc Indians who were prominent in the famous Modoc war.

Mrs Elizabeth S. Madison placed in the collection ten pictures of the de la Guerra family and home, also one of the Santa Barbara mission.

The usual number of pictures of pioneers, authors, artists and musicians has been received.

Books for the Blind Department.

MABEL R. GILLIS, in charge.

Embossed books in five different types are sent to any blind resident of California upon application. Circular and Finding list, with Call slip postal, will be sent on request. State Publications Received During April, May and June, 1912.†

Many of the administrative departments of the State are from time to time publishing reports, bulletins, etc., which are of considerable interest. Copies can usually be obtained free by writing to the departments issuing them. The publications of the University of California are offered for sale or in exchange by the University Press, Berkeley, with the exception of the publications of the Agricultural Experiment Station and some of the administrative bulletins which are distributed free. Most of the publications of the State Mining Bureau are required by law to be sold. Price is given after each entry. The titles are listed in *News Notes of California Libraries*, as they are received at the State Library.

Beginning with January, 1912, state publications are listed alphabetically, and will be continued that way. The reason for the change is that the State Library finds this arrangement more convenient, both on the shelves and in the lists.

† Except when otherwise noted, publications are printed at the State Printing Office, Sacramento, and are octavo in size.

CALIFORNIA LIBRARIES.

All libraries are listed except elementary public school and church libraries and those which belong to private individuals. They are arranged alphabetically by place under counties and counties are arranged alphabetically. To determine the county in which any place is located see list following these introductory paragraphs.

Those libraries are marked with an asterisk (*) which are not free to the public for either loan or reference purposes.

Libraries marked with ‡ are United States depository libraries; those marked with § are depositories for the Official gazette of the Patent Office; those marked with || are geological depositories.

The months are abbreviated as follows:

January Ja	July Jl
February F	August Ag
March Mr	September S
April Ap	October O
May My	November N
June Je	December D

Statistics are printed for the quarter, but are sent in by the libraries for each month separately in most cases, and will be furnished to any one who wishes them in the monthly form upon application to California State Library. So that the figures for circulation may be uniform, current magazines are included in the total whether reported that way or not.

The annual incomes as quoted for the free public libraries are computed when possible from the city clerks' reports sent to the State Controller's office, and are based on the assessed valuation of non-operative property.

Blanks for July, August and September statistics were sent to all of the libraries in September.

There are in California 21 county free libraries; 1 library district library; 2 high school district libraries; 124 libraries supported by city taxation; 66 law libraries, of which 55 are county law libraries; 58 county teachers' libraries; 329 libraries in educational institutions, of which 5 are universities, 9 colleges, 6 normal schools, 241 public high schools, 68 private schools and other institutions; 50 miscellaneous institution libraries and 66 association or society libraries; 54 subscription libraries. In connection with the above libraries there are 365 branches and deposit stations.

There are 117 library buildings, of which 98 were gifts, and of these gifts 83 are from Andrew Carnegie. Of these 83 Carnegie buildings, 6 are under construction, and 1 is being planned.

DIRECTORY FOR LIBRARY SUPPLIES AND OTHER ITEMS OF GENERAL INTEREST.

Many public libraries waste a great deal of time and money before they find good places to get supplies. The plan is to give all libraries the benefit of the experience of the older libraries of the state by listing under different heads the houses that have been found to give satisfaction, the names and addresses being furnished by the older and larger libraries of California. In this way suggestions will be given as to where different sorts of books may be bought, where books may be rebound or periodicals bound, where library furniture may be bought, etc., both in California and in the East.

If any information is needed about the firms listed below which can not be obtained from the firms themselves, the names of the libraries recommending the different ones will be sent to any library upon application to the State Library.

In this same section space will be given to any libraries of California in which to list numbers of periodicals, etc., wanted to complete files; books especially needed at any time, either to purchase or borrow; needs of any sort, such as an assistant to catalog the library, or assist, etc. Space will also be given to any librarian who wants a permanent position in a library, or who wants special work, such as cataloging small libraries, etc.

The section is entirely at the disposal of libraries and librarians for the purpose of mutual aid.

Examinations.

The next examination will be held at the 1913 annual meeting of the California Library Association. The date and place of the meeting have not yet been decided upon, but the date will probably not be earlier than June, 1913.

All who have applications on file with the Chairman of the Board will be duly notified.

The examinations are not of a conventional nature concerning literary and historical subjects, but more especially concerning those pertinent to the conduct of a county free library. And though the questions may not deal largely with technical library subjects, yet it is not advisable for any one to take the examination who has not had library training and experience, as a thorough understanding of library technique is necessary for the successful conduct of a county library system.

The Board of Library Examiners has decided that for the present at least exam-

inations will not be given outside the state, for many reasons. Experience has shown that only persons who have lived in the state and have done library work in a way to gain a personal knowledge of California conditions really understand the county library plan for California. The aim of the examination is to see how thorough is the applicant's knowledge of the conditions under which the county library work must be carried on, and of the problems to be met in the work as it is actually being done in this state. One must have technical library knowledge in order to conduct the county library system successfully and experience in other fields may prove a valuable asset, but a real understanding of the work here is absolutely necessary. And those who do understand what we are doing and what we hope to do will not find the examination difficult. Again, the members of the Board feel that the oral examination which follows the written is most important. They feel that they can not fairly judge of an applicant's qualifications without meeting him in this way.

In view of these facts it would seem unwise at the present time to give the examinations anywhere except under the direct supervision of the Board of Library Examiners.

Sample examination questions can not be furnished.

County free library law.

Reference Department.

SUSAN T. SMITH, in charge.

The Reference Department furnishes information to any inquirer. It furnishes books to public libraries, or any other educational institution, on application; to individuals through the signature of a state officer, of the Librarian of the local library or of the official head of any other educational institution or on receipt of a \$5.00 deposit; to a club or grange on request of its president, secretary or librarian.

The State Library pays the cost of transportation to any one borrowing through a county free library, but in every other instance the charges both ways are paid by the borrower. Wells Fargo Express Co. has granted a half-merchandise rate to the borrower on return shipments.

The newspapers have recently published quite generally notice of a service that the State Library would like very much to be able to give, but which is impossible now with its present fund, and reduced staff. The newspapers stated that we were making up study outlines on all sorts of subjects and collections of books to go with the study outlines. Of course it would not be our wish to make up special collections of books, but we would like to be able to furnish from the Reference Department outlines for study on any subject that is sent to us by any library or individual and to furnish with the outline a bibliography of the best material available on the subject with quite full notes.

Doubtless this service will be undertaken if the State Library fund is increased by the next Legislature. In the mean time if any California libraries have made outlines that they have found especially useful, we would be glad to have copies sent to the State Library, and if used, due acknowledgment will be made to the Library that has furnished them.

The letters that came in after the newspapers published the notice show that the demand for such service would be very great and would come from every part of the State.

Large Loans Collection.

The Reference Department also sends out groups of books up to 1000 volumes to counties starting county free libraries. These books are from a store room collection called Large loans collection. The greater part of the books in the collection are the traveling libraries books. Publishers' gifts and duplicates not needed in the general departments of the library are also being placed in this collection.

These loans are sent by freight, the county free libraries borrowing them paying the freight charges.

The Model School Library, which was the property of the California Teachers' Association and the California Library Association, has recently been presented to the State Library, and will soon become a part of the Large loans collection. A list of the books that are in this collection appeared in the *Western Journal of Education* for March and April, 1910.

Kings County is preparing to send in a request for a loan from the Large loans collection to assist it in making its start in county free library service.

Catalog Department.

IDA G. MUNSON, in charge.

The work of the Catalog Department is proceeding along two parallel lines; the cataloging of the regular additions of new books, and the recataloging of much material needing a fuller treatment than it has heretofore received.

During July, August and September 1023 volumes were cataloged, adding 6250 cards to the catalog.

California Department.

EUDORA GABOUTTE, in charge.

The California Department aims to have a thoroughly good collection of books on the history and description, resources and industries of the State, as well as the works of California authors in all departments of literature. These are made accessible by means of a card catalog. Full names and biographical sketches of California authors, artists, musicians, pioneers and early settlers are being secured, together with their photographs. The collection of bound periodicals is quite large. The Department also contains about 5000 bound volumes of newspapers, a file of which is being indexed with reference to the history of the State. Students will be assisted in their work.

Pioneers and Early Settlers.

It is always interesting to receive the cards of those who arrived in California prior to the gold rush of 1849. Mr and Mrs James Gregson made the overland trip, reaching Sutter's Fort October 20, 1845. Mr Gregson took an active part in the conquest of California, having enlisted under General Frémont. He was in the battle of Salinas plains and guarded General Vallejo during the time he was a military prisoner. Later he was the blacksmith working on Sutter's mill at the time gold was discovered. Mrs Gregson claims to be the mother of the first white child born at Sutter's Fort.

The cards of a number of those who came in '49 have been received and are noted as follows: Thomas Whaley, after a short residence in San Francisco, went to San Diego in 1850 where he lived continuously until his death in 1890. Mr Whaley claimed to be the founder of the brick industry in the State. He took a great interest in the affairs of southern California and left an interesting and valuable collection of historical material. Mrs Whaley was the first American woman in that locality.

Mr and Mrs John Francis Pope lived for about sixty years in San Francisco. Mr Pope was a member of the Board of Education and aided in the establishment of the first free public school in California.

Dr Benjamin Franklin Keene was the organizer and first President of the California State Medical Society. He served as senator from El Dorado county during the sessions of 1852, 1853, and 1854. He received the nomination for Lieutenant Governor, and later for State Treasurer, but died before the election of 1856.

John Mugg Webb was also an argonaut.

Among the early settlers arriving in the fifties there are many interesting cards. Edward Putnam Flint was a shipping and commission merchant for many years. In 1851 he and two other young men led in the organization of the Young Men's Christian Association in San Francisco. He was one of the trustees of the Oakland Public Library when it was turned over to the city and has been on the Board since. Rev. Joseph Rowell, now 92 years of age, has been prominent in the religious life of the State since 1857. When Mr Rowell was 87 years old he made a trip

abroad, unattended, visiting Europe, Asia and Africa. Benjamin Dreyfus, the founder of Anaheim, was a pioneer in viticulture and the first prospector for petroleum in California.

Other cards of interest are those of Antoinette Davis Kidder, Charles Hooper Pyle, Mrs Margaret Keatley Webb, and Charles Joseph Wingerter.

Newspaper Index.

The index covers the following periods: August 15, 1846, to July 1, 1891; also January, 1894, to March, 1905.

The revision of the newspaper index has been completed and the work is going forward in the usual way.

Donations.

Two collections of material have recently come to the department. Miss Laura Steffens donated a number of valuable California books, pamphlets, badges, early certificates and State reports.

Mrs H. E. Huntington and Edward Prentice presented files of early California magazines, among them being a bound file of the first volume of *Sunset* and a number of the first issues of *Overland*, together with Vol. 1, No. 3 of the *Pioneer*. The collection also contained reports and scrapbooks.

Mrs Esther Baldwin Ferguson sent in a '59 account book, and Miss Harriet Eddy presented, among other things, a reprint of an old menu used in the El Dorado Hotel, Hangtown, 1849. It shows two grades of hash, "low grade and 18

*Native Californians.

carats," the former 75 cents, the latter \$1.00; while "baked beans plain" and "baked beans greased" could be had at the same prices as the above.

Authors who have donated autograph copies of their books are thus noted: Zoeth S. Eldredge, Joseph D. Redding, Thomas Parker Boyd, Samuel John Alexander, and Wells Drury.

The most valuable picture received is an oil painting of Collis P. Huntington, presented by Mrs H. E. Huntington.

Charles B. Turrill has added thirteen historical pictures to those previously donated, while Mrs Elizabeth Madison added ten Yosemite pictures to the collection.

Among a number of pictures of pioneers received, that of R. C. Gridley and his famous sack of flour is most interesting. Pictures of authors, artists and musicians have as usual accompanied the biographical cards.

State Publications Received During July, August and September, 1912.†

Many of the administrative departments of the State are from time to time publishing reports, bulletins, etc., which are of considerable interest. Copies can usually be obtained free by writing to the departments issuing them. The publications of the University of California are offered for sale or in exchange by the University Press, Berkeley, with the exception of the publications of the Agricultural Experiment Station and some of the administrative bulletins which are distributed free. Most of the publications of the State Mining Bureau are required by law to be sold. Price is given after each entry. The titles are listed in *News Notes of California Libraries*, as they are received at the State Library.

Beginning with January, 1912, state publications are listed alphabetically, and will be continued that way. The reason for the change is that the State Library finds this arrangement more convenient, both on the shelves and in the lists.
